RE: Science Fair

Thank you to all of the families who have been able to support the children's science learning in preparation for the Primary Science Fair.

The children have also been working towards their science display boards during classroom time.

The work of the children will be on display in the dining room from 1.45 - 2.45 on Thursday afternoon (28th).

If you have some time please join us to look at the display and to talk to the children about their science work.

The displays will remain up after school (28th) and on Friday morning (1st).

Our Tournament of Minds (TOM) teams have been preparing their own work for this week's inter-school competitions.

The TOM teams will be happy to share some of their project work.

Events such as the Science Fair encourage us to live up to our school motto of "Aim Even Higher" so please look out for the introduction of STEM studies (Science, Technology, Engineering and Mathematics) in to our already busy timetable of activities.

We look forward to welcoming those who are able to visit the Science Fair displays.

Best wishes,

Mr Timothy Cooper

Head of Primary
